Notes:

- The above average inpatient spending per bed-day is determined based on the Company's bills for services rendered to patients, including inpatient services, inpatient day services, and the Company's inpatient day services for some medical services provided.
- The consolidated increase in outpatient visits and significant decrease in costs compared to the same period is due to: i) a decrease in the number of lower-level outpatient services provided by the Company's inpatient hospitals; and ii) optimization of medical services and other related costs.

The above operating and indicators are based on the Company's records and the management has not audited the Company's records. The operating and indicators may differ from those disclosed in the annual or semi-annual reports. The operating and indicators disclosed in the annual or semi-annual reports will be audited by the independent auditors.

Shareholders and potential investors of the Company are reminded to rationally deal with any information not officially released by the Company, and shareholders and potential investors of the Company should exercise caution when dealing in the shares of the Company.
